

Rubber J-Curbs

Rubber J-Curbs provide a flexible, attenuating border for poured rubber installations. The specialty engineered curb works to lock poured surfaces into place and provides an attractive solution for edging. Comprised of recycled waste stream content, these borders and curbs are flexible enough to make various shapes and curves for the freedom of design and customization.

Product Details:

- Easy product installation.
- Looks great with no maintenance for years to come.
- Flexible to allow for making various curves and shapes.
- Great solution for unitary, poured rubber surfacing on playgrounds.
- Manufactured in the USA and comprised of recycled rubber materials.
