

Best for lightly used  
playgrounds at  
daycares or  
churches

## ProPlay 40oz Synthetic Turf

TotTurf Play Spaces is a line of natural looking, soft, attenuating turf surfacing perfect for playgrounds. Unlike real grass, our systems are installed to meet fall cushioning requirements for safety compliance. Padded underlayment adds enough pad to help protect your little ones during play. Our ProPlay 40oz Turf is the perfect solution for light traffic playgrounds for day cares or churches.

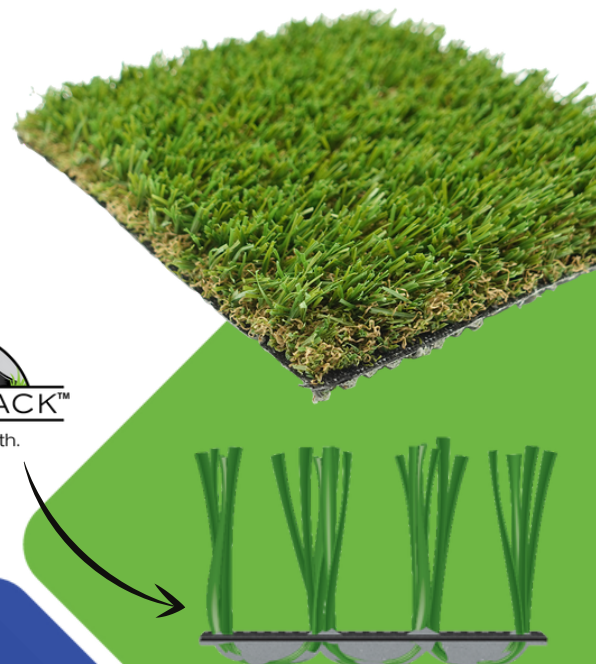

## Features

- Real grass look keeps parks and playgrounds visually serene and environmentally pleasing
- Easily accessible for children with all abilities
- Includes SILVERBACK™, a specially manufactured back lining to prevent extensive turf rutting and damage
- System is available with an upgrade to EnviroFill™ with Microban to help fight the spread of bacteria
